REPORT OF PRINCIPAL AND SCHOOL  
IMPROVEMENT COUNCIL

William S. Hall is a residential facility located in downtown Columbia on the grounds of the SC Department of Mental Health that serves students requiring inpatient mental health services. Unless medically unadvisable, students are expected to participate in educational activities which will prepare them to meet South Carolina learning standards and score as well as their abilities allow on state standardized tests. Our academic program focuses on helping students stay current with their academic skills or develop strengths that will enable them to function more effectively in their regular school programs upon completion of their hospital stay. Each student is offered the opportunity to participate in the Richland One approved core course curriculum taught by certified teachers during his/her hospital stay. An EdGenuity learning laboratory is also available to supplement classroom educational opportunities and to help students who have splintered skills or need enrichment activities. Because of the small number of students tested at our facility, our scores remain statistically insignificant; however, we have noted a steady increase in the number of students scoring Basic and Above Basic on HSAP and PASS. We have also experienced an increase in the number of students receiving passing scores on End of Course (EOC) examinations.

During the 2013-2014 school year we have evaluated our school and program in an effort to identify our areas of strengths and make plans for continuous improvement.

Through the process of developing our renewal plan, we have targeted working towards better communication with our stakeholders as an explicit area of improvement. This is a challenge at William S. Hall School as we have a transient student body comprised of students from all areas of the state. However, we have a very strong system of communicating with the SC Department of Mental Health (DMH) staff regarding our students and the school. This includes phone calls and weekly data sheets about student learning and conditions, regular personal interactions and scheduled monthly meetings. Monthly meetings between school and DMH staff have focused on factors that impact student achievement and learning. During the monthly meetings, Hall school shares results and data with stakeholders, and solicit input from them on how to improve student achievement and instruction. To increase stakeholder involvement, we are in the process of developing a School Improvement Council and actively identifying all stakeholder groups. We will utilize stakeholder input to continuously plan, review, and develop appropriate goals that build and foster appropriate programs. We will rewrite the school’s purpose and mission statements to provide clear statements of the school’s values and beliefs about teaching and learning. During this school term we have implemented a comprehensive guidance program for all of our students. The guidance counselor conducts large group counseling sessions on a weekly basis to address academic, social, and career needs.
